OBJECTIVE

First-class computer science graduate and software engineer with a track record of designing, building and deploying IT solutions that hold up in real conditions, from a Computer-Based-Testing platform now running exam halls across two states, to mobile apps, business websites and offline software shipped through BMITC, the company I founded and lead. Looking to bring that same hands-on, solutions-first approach to new roles, projects and collaborations.

CORE SKILLS

Languages & Frameworks: C#, .NET Framework, ASP.NET MVC, PHP, Python (Flask), JavaScript, Dart

Cloud, Data & Infrastructure: Microsoft Azure, SQL, MySQL, Oracle, Data Analysis, Networking, Systems Configuration, Security Infrastructure

Mobile, Web & Commerce: Mobile Development, Web Development, Web API, Shopify Development

Other: Project Management, Complex Problem-Solving, Communication

EXPERIENCE

Project Manager | *Rangeman Technologies, Lagos State*

2025 – Present

- Plan and oversee delivery of IT and software projects, coordinating timelines, resources and stakeholder communication.
- Work with cross-functional technical teams to keep projects on schedule and aligned with client requirements.

Founder & CEO | *BMITC (Beloved Moses I.T. Concepts), Lagos State*

2023 – Present

- Lead a full-service IT company covering software development, systems configuration, networking and security infrastructure, all under one roof.
- Built and deployed a Computer-Based-Testing (CBT) platform now used by schools across Lagos and Ogun States; the platform was commissioned and awarded by NYSC officials during my service year.
- Delivered 10+ live client products, including school, e-commerce, logistics, nonprofit and dealership platforms, plus 20+ offline desktop applications built to run on local machines without internet access.
- Directed development of LaNet and IYFCSMC, two mobile apps published on the App Store and Google Play.

Software Engineer | *Devformula Nigeria Limited, Magodo, Lagos State*

Aug. 2023 – 2025

- Designed and coded new software, and modified existing software, to add new features.
- Developed and implemented new software and enhancements to existing systems, with a focus on building APIs.

Software Engineer | *Rangeman Construction Limited, Lekki, Lagos State*

Feb. 2022 – May 2023

- Reviewed software documentation to maintain adherence to industry standards and prevent discrepancies.

Software Developer | *Beloved Moses I.T. Concept Institute, Aliero, Kebbi State*

Sept. 2018 – Jan. 2022

- Designed and coded new software, and modified existing software, to add new features.
- Developed simple data queries for existing and proposed databases and data repositories.
- Modified existing software to correct errors, adapt it to new hardware, and improve performance.

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

Kebbi State University of Science and Technology, Aliero, Kebbi State — May 2022

GPA 4.61 - First Class Honours. Best Graduating Student of the Department.

National Diploma (N.D.) in Computer Science

Kwara State Polytechnic, Ilorin, Kwara State — Oct. 2017

Relevant coursework: C# MVC ASP.NET, MySQL, SQL

KEY PROJECTS

- CBT System for Secondary Schools: award-winning, NYSC-commissioned exam platform deployed across Lagos and Ogun States. Runs fully offline, handles both objective and theory questions, auto-grades in real time and needs no printing.
- AgricPal: platform giving young African agripreneurs training, a produce marketplace and access to grants.
- Alpha Choice Innovative Academy: full school website with admissions, academic pathways and a parent portal.
- SB Global Services: cargo logistics platform for Nigeria–UK shipping with live parcel tracking.
- La-Net Hub & LaNet App: free digital learning hub and companion mobile app for WAEC, NECO, JAMB and university students.
- IYFCSMC: mobile app published on the App Store and Google Play.
- Defash Clothing Brand — Shopify storefront for an African fashion label shipping internationally.
- Best Dele AutoSales: dealership website with full vehicle inventory for a US-based car sales business.
- Jordan's Room For Families: website for a US-based nonprofit supporting youth mental health programs.
- Treasury Management System, Point of Sale (POS) System and Web API Software: earlier enterprise software projects.
- 20+ offline desktop applications built to run on local machines for clients without reliable internet access.

AWARDS & LEADERSHIP

- NYSC Commissioning Award - for the CBT platform, recognised by NYSC officials during service year.
- Best Graduating Student of the Department - Computer Science, Kebbi State University of Science and Technology.
- Lead Programmer, KSUSTA Chapter (2022).

CERTIFICATIONS

- Full-Stack PHP, C#.NET
- Data and Business Analytics
- Time Management
